Mary,

I'm not sure if you use Google Docs but I just shared a copy of the Haz Waste Determination document with you through Google Docs. We did not have any edits to the document, only a few questions. Whether you decide to answer the questions through clarifying language in the Determination or we discuss them in one of our bi-weekly meetings, either is fine for us.

If you can't access the document, please let me know and I'll provide it in another format. Thanks.

Hi Alex and Amie,

I have attached our draft Hazardous Waste Determination regarding the materials in the various contaminated buildings on the Dico site. Before we finalize this document, we want to give you a chance to review it.

Also I want to let you know that I will not be able to join the call tomorrow due to a meeting in St. Louis. Several other EPA folks will be on the call and will keep me informed of the discussion.
